

100 Times Better.

Introducing Fill-Rite's new lube transfer pumps.

ENGINEERED AND MANUFACTURED BY TUTHILL.

To make the new Fill-Rite LP-series of lube transfer pumps the best in the business, we went to those who know the business best: our customers. 100 of them to be exact. Our engineers and marketers visited customers' farms, shops, plants and garages. We asked them what they wanted most out of their lube transfer pumps. They told us. We listened. These pumps are durable, portable and hassle-free.

- Heavy-duty cast iron housing
- Self-priming pump
- Quick-detach coupler for easy pump transfer
- Pump base mounts easily to top or side of tanks, carts or barrels
- Simple screen cleaning with only one cap to unscrew
- Check valve located at pump outlet – no need to drain lines

Call Fill-Rite today and find out how the new LP series can benefit you.
