

MDE-5112 EMV SPOT Canada TCR Activation Switch Kit (M13706K00X) Installation Instructions

This bulletin is to update you that MDE-5112 is now available on the Gilbarco website GOLD and it can be found in the EMV library. It provides instructions for installing EMV TCR Activation switch kits. The instructions and kits are provided for the Encore 500 S ECIM, Advantage, and Encore 300/500 dispensers.

The purpose for the TCR activation kits is to improve the performance of the TCR activation switch. Each kit contains hardware made specifically for that particular dispenser type.

Please be sure to use the correct kit when installing the TCR activation switch at the Gilbarco dispenser.

Kit part numbers:

- TCR activation switch kit (M13706K001) Encore S ECIM
- TCR activation switch kit (M13706K002) Advantage
- TCR activation switch kit (M13707K003) Encore 300/500
