Port Coquitlam, British Columbia
V3C 6L4

Subject: Accreditation Certificate A0023

Dear Mr. Christie:

We are pleased to inform you that, further to the request of Zanyar Farhadi, National Quality System Manager and as per section 4 of the accreditation agreement between Measurement Canada and National Energy Equipment Inc., the Schedule A of the agreement has been amended.

The detailed modifications are listed in the revised Schedule A, attached for your records.

In accordance with the requirements of Measurement Canada's accreditation program, personnel of accredited organizations performing examination activities must maintain the required level of knowledge and competencies in order to retain their recognition. Measurement Canada will periodically monitor recognized technicians' competencies.

Once granted, this accreditation is not transferable. In the case of a change of the organization's legal entity, the agreement is no longer valid. A new application must be submitted to and accepted by Measurement Canada before the organization can proceed to perform any examination activities.

Sincerely,

for:

Recognized technicians named in this Schedule A, are authorized to examine devices, at any location in Canada, unless otherwise specified in this schedule.

This is an amendment to the accreditation agreement between Measurement Canada and National Energy Equipment Inc. (A0023). This schedule has been revised further to the request submitted by Zanyar Farhadi, National Quality System Manager. This revised version supersedes all previous versions.

The purpose of the amendment is to:

- add Aaron Keast (A00230167) to the list of recognized technicians to submit examination data under the organization's scope
- remove Martin Pilon (A00230089) from the list of recognized technicians to submit examination data under the organization's scope
- add device type(s) (52-22) for recognized technician Jeff Mills (A00230078)
